

AgroChimInvest

AgroChimInvest

Our company

«AgroChimInvest» LLC is one of the leading Russian companies specializing in growing, processing, refining and exporting of agricultural products such as coriander seeds, mustard seeds, flax seeds, chickpeas, lentils, peas and etc. Our indisputable advantage is its own management and production site. During collecting, cleaning, storage and packing of our products we use only modern domestic and foreign equipment.

For our customers

We are proud to say, that our company has gained the reputation for providing unmatched quality, reliability and giving utmost importance to the needs of the buyers.

We regularly deliver our products to customers in countries such as Egypt, Jordan, Saudi Arabia, Turkey, UAE, Sri Lanka, Indonesia, Malaysia, Yemen, India, Pakistan, Nepal, and European countries. All «AgroChimInvest»'s products pass necessary quality testing and certification. That is why each of our crops meets European and international quality standards.
